

The next-gen plant protein system.

ClearPro™ is a complete portfolio of **plant-based proteins** designed for functional food, beverage, and supplement innovation. Built for **real-world performance**, **ClearPro™** delivers what the industry demands: superior taste, solubility, and reliability in supply - *without compromising on true nutritional impact*.

From single-source ingredients to advanced blends, our range includes pea (D & F), chickpea, rice, fava, mung, and a powerful synergy of quinoa and chia—crafted to meet the needs of clean-label, better-for-you brands across formats.

ClearPro™ proteins are ideal for companies prioritizing taste, texture, and a smooth production process without compromise.

KEY BENEFITS

- 1 **Flavor Optimized:** Engineered for clean, neutral taste — *no bitterness, no masking required.*
- 2 **High Solubility:** Clear dispersion in beverages, ready for RTD and powdered formulations.
- 3 **Scalable & Reliable:** From pilot runs to full-scale production, we’ve got you covered.
- 4 **Nutritional Versatility:** Rich in essential amino acids with unique blends available from 30% to 95% protein.

RECOMMENDED APPLICATIONS

-  **Functional Beverages:** RTDs, plant milks, smoothies, protein waters.
-  **Nutrition Supplements:** Powders, sachets, tablets, gummies.
-  **Bars & Snacks:** Energy bars, baked goods, granolas.
-  **Alternative Dairy & Yogurts:** Fermented and non-fermented systems.
-  **Special Diet Products:** Keto, low-carb, allergen-friendly formulations.

- ✓ FSSC 22000, ISO 22000, HACCP, BRC.
- ✓ KOSHER, HALAL,
- ✓ 100% PLANT-BASED / VEGAN
- ✓ NON-GMO
- ✓ ALLERGEN-FRIENDLY
- ✓ GLUTEN-FREE
- ✓ AVAILABLE IN ORGANIC (SELECT SKUS)

- ✓ GLUTEN-FREE
- ✓ AVAILABLE IN ORGANIC (SELECT SKUS)

1

ClearPro™

PEA (organic and conventional)
80% / 85% protein content

Clean-tasting, high amino acid score PDCAAS, with excellent dispersibility and low sedimentation — *ideal for RTDs, powders, and emulsified systems.*

- ClearPro™ Pea Texturized 60-80% protein content
- ClearPro™ Pea specialties:

LSHC: For Low Sodium formulations below 400ppm
HWR: High Water Retention for high fat food, ice cream and bakery.
HG: High Gelation for more elastic products, can keep more water and oil for more efficient costs and long shelf-life.

2

ClearPro™

PEA SENSORYPRIME

“Maximum functionality. Unmatched flavor”

All the benefits of ClearPro™ Pea - with a special process to guarantee neutral taste, less bitter, increased solubility and easy formulation.

3

ClearPro™

CHICKPEA

80% / 85% protein content

Soft, neutral sensory profile with excellent mouthfeel and moderate viscosity. Rich in iron and folic acid. Stable emulsifying and foaming properties.

3

ClearPro™

RICE

Fine mesh rice protein with good amino acid profile and hypoallergenic properties — suitable for sensitive formulations and blends.

4

ClearPro™

FAVA BEAN

90% protein content

Naturally light color and flavor, excellent for high-protein content with smoother mouthfeel in plant milks and powders. Good solubility, taste and dispersibility.

5

ClearPro™

MUNGBEAN

80% protein content

A next-gen alternative with high solubility and low bitterness — designed for hydration-focused products and clean-label RTMs. Good gelation and emulsifying.

Blended Systems – Smart Performance Line

Designed for formulators who want plug-and-play performance with optimal taste and texture.

6

ClearPro™

SMOOTHBLEND

Pea + Rice + Chickpea — Balanced amino acid profile with a smooth, creamy mouthfeel. Excellent for powdered and RTD formats.

7

ClearPro™

CUSTOM

Fully tailored blends developed upon request, with sensory, functional and nutritional targets — *backed by technical support.*

8

ClearPro™

FULLSPECTRUM

A 7-source protein blend (pea, rice, fava, mung, chickpea, quinoa, and chia) designed for complete nutrition, great taste, and a clean label.

- ✓ Complete amino acid profile with optimized lysine and methionine balance.
- ✓ Excellent solubility and neutral flavor in unflavored format, low allergenicity and clean-label positioning.
- ✓ Ideal for high-performance nutrition, meal replacements, or advanced wellness blends.

WHY CLEARPRO™?

The biggest challenge in plant proteins isn’t nutrition — it’s everything else: taste, texture, supply.

- **ClearPro™** was created to solve that.
- Clean taste. Fast dispersion. Consistent sourcing.
- Because a good formula starts with a great foundation.
