CUSTOMIZABLE

CUSTOMIZABLE
SOLUTIONS,
ENGINEERED
FOR YOU

Reliable, functional, and customizable ingredients for the food, beverage, nutraceutical, and wellness industries. *Driven by Nature. Designed for Performance.*

Our NUBulk™ portfolio is built from carefully selected, renewable, plant-based materials — *responsibly sourced and processed under strict quality standards*. From sweeteners to fibers, botanicals to functional bulks, every ingredient is crafted to meet the technical needs of today’s innovative manufacturers.

CONSISTENCY YOU CAN COUNT ON

We deliver reliable, repeatable functionality with unparalleled clarity, excellent processability, and neutral labeling advantages. Whether your needs are clean-label, non-GMO, allergen-free, vegan, or sugar-free, NUBulk™ offers solutions ready for modern formulation demands — backed by full traceability and technical documentation.

*We understand that formulation is not one-size-fits-all. That’s why **NUBulk™** gives you access to:*

- **Particle Size Variability** – From fine mesh powders to large granules (*tablets, beverages, gummies, etc.*)
- **Color & Flavor Neutrality** – Light color, low odor options that won’t disrupt your base matrix.
- **Direct Compression (DC) Options** – Specially optimized formats for solid-dose formulations.
- **Premix & Blending Support** – Multi-ingredient blends custom-made for your desired sweetness, fiber profile, or botanical synergy.
- **Flowability & Humidity-Stability Adjustments** – Granule conditioning available for tropical or high-moisture environments.

Through close collaboration with your R&D and procurement teams, we help streamline your supply chain while boosting product consistency and innovation readiness.

EDULCORANTES (SWEETENERS)

Offered in Conventional & Organic (where applicable), with various particle sizes and formats.

PRODUCT	FORMAT	SWEETNESS (VS. SUGAR)	NOTES
Erythritol	Powder, Granular	~70%	Non-glycemic, cooling effect
Maltitol	Syrup, Crystalline	~90%	Excellent mouthfeel, low GI
Alulosa	Syrup, Powder	~70%	Rare sugar, near-zero calories
Isomaltitol	Granular	~45%	Tooth-friendly, bulking properties
Isomaltulose	Crystalline	~50%	Slow-release energy, stable
Sorbitol	Powder, Liquid	~60%	Humectant, low caloric
Xylitol	Powder, Granular	~100%	Tooth-friendly, cooling

FUNCTIONAL FIBERS

Improve texture, glycemic response, and claim support. Offered in food-grade & high-purity formats.

PRODUCT	FORMAT	FUNCTION	SOLUBILITY
Polidextrosa	Powder	Sugar/fat replacement, prebiotic	High
Pea Fiber	Powder	Texture, bulking	Low
Inulin	Powder	Prebiotic, mouthfeel, synergy	Medium
FOS (Fructooligosaccharides)	Powder	Prebiotic, mild sweetness	High
GOS (Galacto-OS)	Powder, Syrup	Infant nutrition, gut support	High
XOS (Xylo-OS)	Powder	Strong bifidogenic effect	Medium
IMO (Isomalto-OS)	Syrup, Powder	Mild sweetener, texture builder	High

BOTANICAL EXTRACTS & BIOACTIVES

Targeted wellness solutions. Standardized or full-spectrum extracts.

PRODUCT	FORMAT	FUNCTION
Resveratrol	Powder	98% purity or fermented forms available
Adaptogens	Powder	Adaptogen, Powder and Extract, Organic and Conventional
Tea Extract	Powder	50%-90% options
Berberine and Ginseng	Powder	Energy, vitality, sports positioning, immune support

FEED INGREDIENTS (ANIMAL NUTRITION)

Bulk ingredients optimized for cost, digestibility and health.

PRODUCT	FORMAT	APPLICATION
Amino Acids	Powder	Lysine, Threonine, Methionine
Lecithins	Powder/Liquid	From Soy or Sunflower – emulsifier
Botanical Powders	Powder	Animal well-being & growth promoters

- ✓ KOSHER / HALAL / NON-GMO (UPON REQUEST)
- ✓ ISO, FSSC, HACCP, BRC COMPLIANT
